The Physiology of the Liver.

The liver is the largest secreting organ in the human body and the bile which it secretes is more liable to vitiation and misdirection from its proper channels than any other of the animal fluids Luckily for the bilious however there is an unfailing source of relief from liver complaint namely, Hostetter's Stomach Bitters a medicine which for over a quarter of a century has been achieving thorough cures of the above mentioned ailments fever and ague dyspepsia bowel complaints rheumatic and kidney affection and disorders involving loss of nervous vigor It is moreover a preventive of malarial disease and affords protection to thousands of persons residing in districts of country where that dire scourge is prevalent As a remedy adapted to the medicinal requirements of families it is supremely desirable and as a means of fortifying a debilitated system it is thoroughly to be depended upon.

WASHINGTON.

The Senate Passes the Mexican Pension Measure.

THE RAILROAD ATTORNEY BILL.

Its Provisions as Reported from the Judiciary Committee The President Pardons an Embezzler—Capital Notes

SENATE

WASHINGTON July 12.—The chair by request, introduced a bill to stop all payments of public money to James B Eads his associates or assigns for future work at the mouth of the Mississippi until further order by congress referred

The senate resumed consideration of the calendar and the objection of Riddleberger of last Saturday not being interposed the senate bill to prevent obstructive and injurious deposits within the harbor and adjacent waters of New York city by dumping or otherwise was taken up at the request of Miller and passed

On motion of Hale the committee on privileges and elections got permission to sit during sessions of the senate It is understood that this is connected with the Payne case

The house bill granting pensions to soldiers and sailors of the Mexican war having been reached on the calendar objection was made by Teller but on appeal to him by Wilson of Iowa and a statement by Harris that the democratic senator would not take any time in discussion it was withdrawn The bill was then considered and passed

PROVISIONS OF THE BILL

The bill as passed directs the secretary of the interior to place on the pension roll the names of surviving officers enlisted men including marines and militia and volunteers who being duly enlisted actually served sixty days with the army or navy of the United States in Mexico or on the coasts or frontier thereof or en route thereto during the war with that nation or who were actively engaged in battles of said war and were honorably discharged and to surviving widows provided that such widows have not remarried and provided that every such officer enlisted man or widow who is or may become 62 years of age and who is or may become subject to any disability or dependence equivalent to some cause recognized by the pension laws as sufficient reason for a pension shall be entitled to the benefits of this act except where such disability or dependency was incurred in aiding or abetting the late rebellion The pensions are to be $8 per month payable only after the passage of the act The law is not applicable to persons already receiving pensions at or over that rate and where persons entitled under this law are already receiving pensions less than $8 a month pensions shall only be for the difference up to $8

OTHER BUSINESS

A senate bill passed to credit the state of Oregon with $12 [illegible] for ordnance and ordnance stores

Among the bills which were objected to and which went over without action was the following, To equalize bounties of soldiers, sailors and marines in the late war—Logan's bill

The senate then resumed consideration of the river and harbor appropriation bill the pending question being on the Hennepin canal and Michigan & Illinois canal amendment agreed to yeas [illegible] nays 2

An amendment to an item of $40 000 for improving the Sacramento and Feather rivers California was to strike out some lines directing legal proceedings to prevent washing, sluicing dumping or discharging of debris caused by hydraulic mining This was discussed at some length by Stanford Hearst Dolph Edmunds and Ingalls Stanford and Hearst favored amendment of the lines proposed to be struck out while Edmunds contended that congress had no power to legislate as to these rivers as the state of California had exclusive jurisdiction over them

Stanford explained that if this practice of dumping debris into the Sacramento was not prevented the harbor of San Francisco would be ruined and he asked whether the general government had no right to interfere and prevent it No vote was had on the amendment

McMillan gave notice that he would ask the senate to dispose of the bill to-morrow

Allison from the committee on appropriations reported back the sundry civil bill with amendments ordered printed The senate adjourned

HOUSE

WASHINGTON July 12.—Under call of states the following bills, etc. were introduced and referred

By Wheeler of Alabama declaring it to be the sense of the house that congress should not adjourn until it has enacted a law appropriating a portion of the surplus money in the treasury to assist the states in the great work of education

By Robertson of Kentucky appropriating $10 000 for the erection of a granite shaft to mark the birthplace of Abraham Lincoln

By Lovering of Massachusetts by request to abolish the importation of Italian and other slaves or laborers into the United States

Voorhees of Washington territory from committee on public lands reported a bill permitting all persons who have lost homestead rights to make new entries, committee of the whole

The committee on appropriations recommends that an amendment—relative to the publication of records of the war of the rebellion providing that evidence taken by the court martial on the trial of Fitz John Porter together with the report thereon by Judge Holt to President Lincoln shall be printed in connection with matter already printed concerning the proceedings of said court martial—be concurred in with an amendment providing for the printing of any papers on behalf of the defense in that court martial directly connected with the proceedings of the same and contemporaneous therewith which have not been already published

The republicans desired to concur in these senate amendments without amendment and a motion to this effect having been defeated they manifested some disposition to filibuster but finally allowed the recommendation of the committee to be agreed to with an understanding that a yea and nay vote should be taken upon it in the house

An amendment increasing from $4000 to $5000 the salaries of commissioners of pensions and patents was concurred in

Consideration of amendments was completed in committee but pending action by the house an adjournment was taken

THE RAILROAD ATTORNEY BILL

Provisions of the Measure as Reported from the Judiciary Committee

WASHINGTON, July 12.—The senate committee on judiciary this morning agreed to report back the railroad attorneys bill, a majority of the committee consenting to favorably report The bill has been materially amended in committee Under its provisions congressmen may become attorneys for subsidized or land grant roads in suits between one company and another or between one company and an individual but are prohibited from serving as attorneys in cases in which the government has an interest The prohibition is extended to other than railroad interests so that congressmen may not serve any corporation as attorneys whose interests are or may become the subject of congressional legislation The bill will probably be reported to day or to-morrow

PROVISIONS OF THE BILL

WASHINGTON, July 12.—The railroad attorney bill as reported to day by Mr Hoar from the judiciary committee makes it unlawful for a member of either house of congress to accept employment as attorney or payment for services of any kind in opposition to the United States, in any case to which the United States may be a party or in which its interests may be concerned or from or against any railroad company which obtained its charter or any grants of land or pecuniary aid from the United States, when measures especially affecting the interests of such railroad are pending before congress or from or against any bank or other corporation which obtained its charter or any pecuniary aid from the United States or from or against any corporation engaged in interstate commerce by land or water or in transportation [illegible] or against any corporation [illegible] or agent thereof [illegible] or [illegible] which duty or excise tax is levied by act of congress

A violation of the provision of the act is made a misdemeanor and is liable by imprisonment not exceeding one year or by fine not exceeding $5,000 or both

HOAR'S SUBSTITUTE

A substitute offered by Hoar makes it unlawful and punishable by a fine not exceeding [illegible] or imprisonment not exceeding one year or both for any member of either house of congress to accept employment as attorney-at-law or payment for services of any kind in opposition to the United States in any case to which the United States may be a party or in which its interests may be concerned or from any railroad company which obtained its charter or any grant of lands or pecuniary aid from the United States If such member shall have reasonable cause to believe that measures specially affecting the interests of such railroad are pending before congress or about to be pending during his term of office

Coke on behalf of the minority consisting of Wilson of Iowa Vest George and himself reported back the original bill

WASHINGTON NEWS ITEMS

THE SUNDRY CIVIL BILL

WASHINGTON July [illegible]—The sundry civil appropriation bill was reported to the senate this evening [illegible] Following are some of the principal changes in the house bill by the senate committee on appropriations The provision for a [illegible] building at Denver Colorado is stricken out

The provision of the house bill relating to silver certificates is amended to read as follows That the secretary of the treasury is hereby authorized and required to issue silver certificates in denominations of $1 $2 and $5 and the silver certificates herein authorized shall be receivable redeemable and payable [illegible] for all purposes as provided for silver certificates by the act of May [illegible] 1878 entitled An act to authorize the coinage of standard silver dollars and to restore its legal tender character, provided that said denominations of $1 $2 and $5 be issued in lieu of silver certificates of larger denominations in the treasury and to that extent said certificates of larger denominations shall be canceled and destroyed

An appropriation of $50 000 is made for the detection and bringing to trial of any violators of the internal revenue laws

The appropriation for the navy yard at Mare Island California is increased from $1[illegible] 000 to $1[illegible] 000

The appropriation for protecting lands from fraudulent entry is reduced from $30,000 to $[illegible] 000 The appropriation for the construction of buildings etc at military posts is increased from $1[illegible] 000 to $2[illegible] 000

An appropriation of $[illegible] 000 is made for an industrial home in Utah designed as a place of refuge for women who desire to escape from polygamy

TAXATION OF DISTILLED SPIRITS

WASHINGTON July 12.—The report of the committee on finance on amendments to the bill relating to taxation of fractional parts of a gallon of distilled spirits was presented in the senate to day The committee says regarding special bonded warehouses for fruit brandies that owing to the fact that no bonded privileges are extended to producers of apples and peaches, there is not only great hardship experienced from the levying of internal revenue tax upon them but also a great incentive to fraud It has been observed also the committee says that where a tax on spirits intended for consumption is levied and collected at the time the goods are first produced the excessive cost of the same owing to the imposition of tax causes holders to throw them on the market long before they are mature and fit for use as beverages It is really to the interest not only of the producer and the government but also to consumers that the amendment should be enacted into a law as a means to prevent fraud It would certainly result in an increase of the public revenue

Regarding the amendment providing for the use of wine spirits distilled from grapes free of tax in the fortification of sweet wines, the committee says the internal revenue tax collected on wine spirits necessarily used in the fortification of sweet wines constitutes in effect a tax upon sweet wines and represents an increased cost to the producer of about twenty cents a gallon Sweet wines of this country can be produced and exported and maintain their place in foreign markets in successful competition with similar products of other countries if this internal revenue tax is remedied

THE PRESIDENT PARDONS AN EMBEZZLER

WASHINGTON July 12.—The president has pardoned P. Porter [illegible] now confined in the Buffalo penitentiary for embezzlement Following is the president's memorandum in regard to this case This convict was sentenced in November at Syracuse in New York to be confined in the penitentiary at Buffalo for a term of ten years for embezzling funds of the First National bank at Buffalo while he was president thereof The public are so much interested in the security of our banking institutions that I am much disinclined to extend clemency to those found guilty of offences like that of which this prisoner was convicted I am entirely familiar with this case and knew prisoner a long time before his conviction His sentence was generally regarded at the time it was pronounced as a very severe one being the full extent of the law With the commutation allowed in the state of New York for good conduct in prison he has served of his sentence five years His wife a noble courageous and devoted woman, and five small children were sad sufferers for his crime and excited the sympathy of the entire community by her patient hard labor to support her children and her never failing trust and hope in the darkest days. This wife has demonstrated that she at least is entitled to clemency I am glad to be able to restore to her her husband to be satisfied at the same time that the ends of justice are fully answered GROVER CLEVELAND

APPLICATION FOR A PARDON DENIED

WASHINGTON July 12.—The president has denied the application for a pardon in the case of James Milton now undergoing sentence for demanding and retaining excessive fees for prosecuting pension cases The president in passing on the case says The offense for which prisoner was convicted consisted in extorting from a soldier for procuring a pension, $600 when he was only entitled to $10 This crime is serious and its bad consequences are far reaching involving extortion from soldiers who put themselves in the power of pension agents and leading to criminal practice in the procurement of pensions People who make it a business to procure pensions are often of such a character as to need all the restraint and when guilty all the punishment they receive

THE WHEAT CROP

WASHINGTON July 12.—Prof Dodge statistician of the agricultural department says concerning various estimates made from his last report on the wheat crop that though the average condition of spring wheat on the first day of last July was [illegible] it fell to 8[illegible] at the time of harvest which is only three points higher than the present condition and represents a loss of less than [illegible] 000 000 bushels as compared with the result of last year's harvest. Damage occurred last year in the last two weeks of July and later There is great risk of further damage during July and August but that already reported means only a loss of [illegible] 000 000 bushels in spring wheat and 5 000 000 bushels in winter wheat or a total loss of 11 000 000 bushels in wheat during the month of June

JUSTICE FIELD VERY ILL

WASHINGTON July 12.—A seat which it is reported Secretary of State Bayard is desirous of securing, upon the supreme bench may become vacant sooner than he had any reason to anticipate Private advices received from England state that Justice Field who is at present sojourning in London is very ill He is said to be suffering from stomach troubles which have resulted in his being placed on a diet of the plainest and simplest character Justice Field's friends in this city are greatly alarmed at these reports which if not exaggerated may foreshadow a general breaking down of his health It is said that if his malady shall prove of such a nature as to interfere with the discharge of his judicial duties he will shortly retire from the bench

LETTERS TO THE SENATE

WASHINGTON July 12.—The acting secretary of the treasury to day sent to the senate a letter from the treasurer of the United States recommending that the sum appropriated for the recoinage of gold and silver coin for the current year be increased from $10 000 to $30 000 In his letter the treasurer says the demand for subsidiary silver coin is largely in excess of the supply in the treasury offices and mints and is increasing

The acting secretary of the treasury sent to the senate to day a letter from the supervising architect of the treasury asking for appropriations for approaches and heating apparatus for public buildings as follows Port Townsend W T $1[illegible] 000 Carson City Nev $[illegible] 000

ANOTHER PRESIDENTIAL PARDON

WASHINGTON July 12.—The president has notified Congressman Morrow that he has pardoned William Watts of California who was under sentence for beating and wounding a sailor Watts was mate of the ship Cathedral and was convicted in the United States district court in San Francisco February [illegible] and on March 5 1881 was sentenced to [illegible] for six years on a charge of cruelly beating and wounding seamen The pardon was granted by the president on showing that the punishment inflicted on the sailor was deserved

THE ASSISTANT SECRETARY OF THE TREASURY

WASHINGTON July 12.—Hugh T Thompson of South Carolina qualified this morning as assistant secretary of the treasury and at noon was visited by all the bureau and division officers of the department who were presented to him by Chief Clerk Youmans He called at the White house during the day in company with Comptroller Trenholm and paid his respects to the president

HOADLY STANDS A CHANCE.

WASHINGTON July 12.—Among current gossip is a rumor that any changes in the cabinet will be likely to bring ex Gov Hoadly of Ohio to the front Ohio democrats say that when Cleveland last year induced Gov Hoadly to be a candidate for re-election against his own wishes he held out this idea to him

MRS SARTORIS

Revival of the Stories of her Cruel Treatment by her Husband

WASHINGTON July 12.—A relative of the Grant family in this city is authority for the statement that the married life of Mrs Nellie Grant Sartoris is far more humiliating and unpleasant than has yet been made public Mrs Sartoris makes her home with her husband's father in the [illegible] of England There according to a [illegible] [illegible] she is treated as a sort of poor relation Two rooms are set aside for her use for herself and children and their meals are furnished but nothing else is given to them either by her husband or Mr Sartoris Sr So far indeed as the younger Sartoris is concerned it is said that he has not contributed a penny for his wife's support for years It is a well known fact that for two years prior to General Grant's death remittances were regularly sent to Mrs Sartoris in order to provide herself and children with clothing and necessary articles When General Grant became impoverished through the rascality of Ferdinand Ward the great sorrow of the general is said to have expressed was that his poverty would prevent him from further assisting his daughter who had been practically supported by him [illegible]

All members of the Grant family who still contribute to the support of Mrs Sartoris [illegible] Mr Sartoris [illegible] [illegible] and Mrs Grant had such a request only a few [illegible] [illegible] of some fresh [illegible] [illegible] her [illegible] [illegible] Mr Sartoris [illegible] [illegible] indignant [illegible] [illegible] [illegible] with her [illegible] [illegible]

[illegible] While Sartoris is traveling about England spending the meager allowance [illegible] father [illegible] [illegible] company of [illegible] [illegible] which reach here from New York say that Sartoris has been absent from his wife since last spring, and she hears from him only at rare intervals

[illegible] Hartington whips have been given [illegible] Mr Brand Mr Craig [illegible] was defeated at [illegible] [illegible] It must be [illegible] however that Lew [illegible] his fortunes [illegible] field [illegible] [illegible] [illegible] won back his seat for his [illegible] constituency deserted [illegible] liberalism [illegible] Friday and elected a conservative by a [illegible] majority

[illegible] the Gladstonians [illegible] were re-elected [illegible] in the [illegible] division [illegible] of Northumberland and Thomas [illegible] Price [illegible] North Monmouthshire

TORY VICTORIES

On the other side the conservatives have added [illegible] names to their list Joseph Howard goes back to Westminster from the Tottenham division of Middlesex and Hon Murray Finch Hatton brother of the Earl of Winchilsea is re-elected from the Spalding division of Lincolnshire where he has defeated his old antagonist Halley Stewart The Lincolnshire constituency is a very close one and the Gladstonites were hopeful of carrying it but the whig and tory combination was too much for them

Five hundred and eighty two elections have been heard from and the tories maintain a clear majority of two Returns stand Tory 2[illegible] liberal unionists 6[illegible] Gladstonites [illegible] nationalists [illegible] Speaker Peel counts a neutral on the Irish question The unionists have a majority of [illegible] over the combined Gladstonites and nationalist vote The conservatives have a plurality of [illegible] over liberals of every pattern and as stated above a clear lead of 2 over all other parties and subdivisions combined Eighty eight conservatives have still to report.

A LETTER FROM THE DUKE OF ARGYLE

LONDON July 12.—The Duke of Argyle publishes in to day's Times a letter concerning the United States and Ireland He says that despite national sympathies there is a profound ignorance in England and the United States respecting each other's constitutions He admits his own ignorance at the beginning of the American civil war in sympathizing with the South He says the sympathy of Americans for the Irish in their present struggle arises from the error of thinking of Ireland as an American state and that the English are withholding from Ireland powers similar to those possessed by the different states of the American Union Nothing, says the duke, could be more erroneous than this idea Referring to the right of each of the United States to a due share in the general power of congress and to checks in its power of self government which each state allows he says Gladstone's proposal violates both these grand principles for the corrupt and immoral bargain banishes Ireland from the imperial councils and surrenders the minority into the hands of a local majority Americans cannot perhaps hardly believe this but it is strictly true and the pretended limitations and restraints against local tyranny are quite illusory

The duke then appeals to Americans to clearly understand the unionist contention namely that it has been for Ireland's sake solely that unionists have been opposed to Gladstone's scheme

THE TIMES CRIES [illegible]

LONDON July 12.—The Times says that the British elections amount to a mandate from the people to the conservatives and unionists to form a strong and durable coalition government Patriotism demands this the Times says a Hartington Salisbury administration assuring the nation's future

NO CHANGE IN THE SITUATION

LONDON July 12.—Neither party made any [illegible] in the parliamentary elections to day [illegible] O'Neill conservative is re-elected for mid [illegible] Antrim over McKelvy—his Parnellite opponent In the last election the district was given to O'Neill

Lord Ernest Hamilton conservative is re-elected for Tyrone over J O Wylie, liberal [illegible] [illegible] In the last election John Dillon unsuccessfully contested this district against Lord Hamilton

[illegible] Parnellite has been re-elected for North Donegal over Lieut Col H H A Stewart by a vote of [illegible] to [illegible] The same candidates contested the district at the last election when they obtained respectively 4507 and 35[illegible] votes

The tories now have elected 2[illegible] candidates the unionists 6[illegible] liberals 141 and Parnellites 74

POLITICAL NOTES

LONDON July 12.—Negotiations between Lord Hartington and Salisbury are in progress It is reported that Lord Hartington has pledged himself to support Lord Salisbury's local government bill, and to reject all approaches of Mr Gladstone If Mr Gladstone remains in office the first move of the unionists will be a vote of want of confidence

In a speech foreshadowing the conservative policy Sir Michael Hicks-Beach said that the first measure would be to suppress the Irish national league exercise cloture and suspend the Irish obstructionists.

Gladstone has written a letter to Dr B W Foster, in which he says that he considers the Duke of Westminster's opposition to Dr Foster's candidacy for parliament in Chester a fresh blow struck at the aristocracy

LONDON PRESS COMMENT

NEW YORK July 12.—The Herald's cable this morning says The Chronicle radical save as to home rule says We understand this morning from those who are usually well informed as to Gladstone's intentions that unless the tories have a majority over all parties which is somewhat problematical he will not resign until the new house of commons definitely proclaims its want of confidence in him

The Telegraph says It is suspected by some of Gladstone's enemies that taking advantage of divisions in the ranks of his foes he will defy them to turn him out

The News says We trust that Gladstone will resign if there is a clear majority against his Irish policy

GLADSTONE'S FEARS

NEW YORK July 12.—A London special to the Tribune says Gladstone in conversation with a friend yesterday assumed that his resignation was a matter of course and expressed his fears that Salisbury would raise a war scare over the Batoum incident, with a view of postponement of the Irish question

THINKS GLADSTONE WILL RESIGN SOON

NEW YORK July 12.—The Tribune says editorially Gladstone's defeat involves an immediate change of government His resignation will be deferred until the results of the election are definitely declared but there is every reason to believe that it will precede the meeting of parliament Gladstone is too proud a statesman to allow himself to be dragged on the ground under Chamberlain's chariot wheels Negotiations with the unionists will alienate at once the nationalists and make [illegible] the laughing stock of England The [illegible] minister will retire from office with dignity and not enter into any disreputable dickering with [illegible] foes who would exult in an opportunity to degrade him

SPORTING NOTES

THE WINNINGS

NEW YORK July 12.—The Tribune has the following Dwyer Bros. have already won over $100 000 in stakes and this year's racing season can be said to be only fairly begun They will undoubtedly win an unprecedented amount but will not equal the winnings of some English owners The reason of this is not that they have not just as good horses but because at present American stakes are not as large as English ones Jockey clubs here are taking steps in the right direction however They are increasing the amount of added money to an extent that is considered by the more conservative of members to be unwise Fresh blood is needed in American turf enterprises There is money in good racing stables and unfortunately, in poor ones Under the circumstances there are sure to be many accessions to the turf resulting from the large amounts of added money Some will be beneficial and some will be otherwise What is wanted most are men who run their horses for glory as well as for money

PORTLAND, TUESDAY, JULY 13, 1886.

NATIONAL POLITICS

The present state of politics and parties is peculiar. There is no line clearly dividing the parties, nor can either party secure the united action of its own members and adherents on any subject of contemporaneous interest. The republican party can agree upon nothing but its history, while the democratic party even worse off, has no history it can agree on.

In this situation the republican party appears to have some advantage, since it has a history that still inspires large numbers, and so makes within the party a powerful body of opinion, cementing and consolidating the party as a great political force with whose strength the democratic party in the Northern states has nothing to compare. Hence, in spite of the defeat of 1884 the republican party in the Northern states appears to be a more united force than the democratic. In the Southern states, on the other hand, memories of the great historic struggle still make the democratic party substantially a solid body. In Georgia at this moment an ex Confederate general, John B Gordon, is attempting to run into office upon his war record, and no doubt will succeed, though the Augusta (Ga.) *Chronicle* rebukes him for it. Says the *Chronicle* "Gen Gordon waves the bloody shirt and calls for popular support on that ground mainly," and it adds "The people of Georgia in 1884 denounced Blaine for his revival of war memories. And yet these same Georgia people who put their malediction upon Blaine two years ago because of his incessant waving of the bloody shirt, turn right around and indorse Gen Gordon because of similar practice." This is a sensible protest, but it is quite useless. For at least another generation more people, North and South, will be united in opposing parties upon the history of the mighty time of 1860-65 than upon contemporaneous questions. And yet the contemporaneous questions may and doubtless will decide most of the elections.

In the main President Cleveland's administration is worthy and yet it is notorious that it has not the entire approval of his party. He has not given his supporters the offices fast enough, and he is not playing the demagogue by professing great things to the labor organizations. He proves not to be the kind of man who can be relied on to help everybody to everything out of the treasury. He is vetoing many bills for pensions, for public buildings and other expenditures, it is believed he will veto the great river and harbor bill. Washington specials say that the opinion prevails and there is strong foundation for it, that he will return this bill to the house without his approval, upon the ground that no public necessity requires the expenditure of the large sums of money voted for certain points. This belief in the negative action of the president is so strong that many democrats of the house are advocating the policy of laying the bill on the speaker's table when received from the senate and permitting it to remain there without further action. Democratic members believe this would be more politic than to send it to the president and have it vetoed. They fear that the effect of a veto would be attended with bad results to the democratic party at the fall elections, and would cost the loss of many districts where members are elected by slim majorities.

Upon the tariff question the party of the majority experiences similar embarrassment. About three-fourths of the democratic members of the house demand considerable reductions of the tariff, the remaining one-fourth withhold their assent, on the ground that to grant it would be equivalent to their dismissal from congress by their constituents. This again is followed by the appointment of a democratic congressional committee of twenty seven, who are to draw up an address to the country in support of the views of the majority.

Ex-Senator Francis Kernan, of New York, expresses the opinion that if the presidential nominating conventions should be held to-morrow and Mr Blaine should be the republican candidate, the democrats would at once nominate Mr Cleveland as his opponent. Mr Kernan is one of the most prominent democrats of the state of New York, and is identified with the most reputable element of his party.

But the New York *World* is quite sure that his statement is an error of judgment. It says that the object of the democratic convention should be to select as a candidate "some one from whom Mr Blaine could not draw the large number of democratic votes that was cast for him in 1884," and it intimates that Mr Cleveland would not be that man, but that Gov Hill would be. But Gov Hill never could get the support of the mugwumps,—no small factor,—and hence it will be difficult to steer the democratic party of New York between these rocks of danger. Meantime no one doubts that the vote of New York will decide the election in 1888, as it did in 1884.

In all these discussions the absence of definite points of disagreement between the parties is a noticeable thing. The government doubtless will be conducted under one of the parties very much as it would be under the other. If we put aside questions and differences now historical, there is not likely to arise very soon anything to make the average citizen agonize greatly for the ascendency of one party or the other.

THE COLUMBIA RIVER BAR SERVICE.

The Liverpool *Journal of Commerce* of June 24 in an article supplementary to another of April 2, deals with the matters of towage and pilotage at the entrance to the Columbia river. From this late article we extract the following:

> One set of [illegible] authorities of the [illegible] of Oregon [illegible] with ships the pilotage [illegible] the towage [illegible] and when [illegible] vessels [illegible] land [illegible] [illegible] captains [illegible] [illegible] the master [illegible] save the [illegible] contract [illegible] [illegible] the stage.
>
> The [illegible] outgoing [illegible] have been reduced by the tug company when the article was written, and [illegible] pilotage cannot be collected [illegible] the basis for complaint has been removed [illegible] that charges in and out of the Columbia river are now very reasonable. Vessels sailing in incur more risk than is justified by the saving. The rates for freight obtained here are amply sufficient to permit the payment of charges in and out.

It is true unquestionably that in past years there has been ground for complaint by ship owners but we believe that at the present time business is conducted as well as could be expected under the circumstances. Complaints made recently when hunted down have been found to be without just cause. There is a class of masters not capable of doing business for their ships, although they may be good sailors, who find trouble at every port—here, of course, as elsewhere.

Pilotage and towage ought to be separate interests, but the effort made to separate them here has failed, practically, owing to the circumstance that the mouth of the Columbia is under two jurisdictions. The comparatively limited amount of our commerce has proved another obstacle to proper organization of the service. But it is questionable if at any port in the world where the two are united the main result of prompt and reasonably cheap service is as well secured as here. It is true that the tug company, which practically monopolizes the business both of towage and pilotage, is not eager to give towage to vessels employing independent pilots, but we have yet to hear of an instance where the tugs refused to give towage to vessels spoken by independent pilots, as claimed in the article quoted above. At this writing the new schedule of charges has doubtless been placed in the hands of foreign owners. It has before been printed in THE OREGONIAN but is given again this morning (on another page) to illustrate the statements above respecting the charges at this time.

The report submitted to the Board of Trade last night by a committee appointed some months ago to investigate complaints respecting pilotage and towage on the bar is sweeping and ill considered and is calculated to damage the reputation of the Columbia river among ship owners. The "investigation" by the committee has been prejudiced and partial and in writing the report the chairman has tried not so much to state the situation and facts fairly and frankly as to make a bad and striking story. Exceptional and long-past instances have been hunted out and magnified while the main and important fact, namely, that the service is generally speaking efficient, prompt and reasonably cheap is entirely overlooked. The report was very properly laid on the table for the present.

PROTECTION DOES NOT HELP THE FARMER.

Mr Ezra Meeker, of Puyallup, W T, a man for whose judgment we have the highest respect, thinks that it is possible to cure the agricultural stagnation of the times by legislation. A higher and more general protection is, in general terms, the plan proposed in his letter printed in Monday's OREGONIAN. Perhaps an application of protection would help out the particular industry, that of making sugar from beets, which Mr Meeker employs as an illustration, but we cannot believe that agriculture, generally speaking, has anything to gain from protection. And for this reason—that protection advances the cost of nearly everything the farmer has to buy and adds not a mill to the price of what he has to sell. Protection, by keeping up an artificial price for iron and articles made in whole or in part of iron, adds a large per cent to the cost of farm machinery. Every article, from a garden rake to a threshing machine, is the dearer for protection. The freight rate on machinery from the place of manufacture to the field (a large item in a remote country like our own) is greater for protection, because protection adds to the cost of railroads. The same circumstance adds to the freight rate on farm products from the field to the place of market. Protection adds to the cost of the clothing worn by the farmer, to the furniture in his house, to much of the food on his table and to the books he reads. Protection makes the farmer pay an artificial price on the wire that binds his sheaves and the bags that hold his harvest. On the other hand, protection does not advance the price of any product he has to sell. Protection may help iron men, furniture men and sugar growers, but it does not help the farmer, certainly not the farmer of Oregon and Washington who must buy in a protected market three thousand miles away and sell in a free market fifteen thousand miles away.

The Union *Sentinel* republishes an article from THE OREGONIAN on the management of the Pine creek road appropriation, with the remark "THE OREGONIAN has always been known to oppose every enterprise that has in it a tendency to advance this part of the state." This is the habitual remark of uncandid dullness, when no other answer to THE OREGONIAN is possible. In this case, as in others, it is false, of course. THE OREGONIAN urged the appropriation for the Pine creek road. The idea was in fact first proposed and advocated through these columns. It now has statements from Union and Baker counties to the effect that the money has not been properly used, and on this point it urges an inquiry. It seems that criticism upon alleged misuse of public moneys is regarded in the Union *Sentinel* office as the result of a purpose to "oppose every enterprise that has in it a tendency to advance that part of the state." Since the *Sentinel* is right on the ground, wouldn't it better publish a detailed statement of the manner in which the appropriation has been expended, and so, if there is no ground for criticism, set the matter at rest? Why be lazy, stupid, uncandid and dishonest, and yet claim a place in journalism?

At Seattle yesterday there was a contest between the law and order element and the crowd that made the riot last February. The line was clearly drawn and the battle was fought bitterly. The "tough" and lawless element carried the day and elected the mayor by 4[illegible] majority.

A man supposed to be Saunders, Linn county's escaped murderer, has been captured at Walla Walla. He says his name is Chestnut. Perhaps it is Saunders and he is trying to play that for a stale joke—a "chestnut," as it were.

Throughout the Willamette valley machinery is being set in motion. In a week or ten days ahead harvesting operations will be general. Not more than a two-thirds crop is expected.

The wealth of Boston foots up $700,000,000 on the tax roll, that of San Francisco $230,000,000. Yet San Francisco affects to be a greater city than Boston.

THE MOSES RESERVATION

Route of Access—Excellent Mineral Indications—Fine Stock Country—Mild Climate, Etc.—Observations of a Prospector

Spokane Falls Chronicle

The Moses reservation, just thrown open to settlement by an order of the president, is being thoroughly prospected by parties from Tacoma, Yakima, Sprague, Colville, Spokane Falls and Coeur d'Alene. The most direct and practicable route to the new mines is to follow the old Fort Chelan government road to the mouth of Foster creek, thence cross the Columbia and then the Okanagan about ten miles from its confluence with the Columbia and proceed up the Okanagan to Salmon creek, a distance of 25 miles from its confluence with the Columbia. Salmon creek is a small creek carrying about 400 miner's inches of water, and having an average fall of 200 feet per mile. It has its source about 32 miles northwest of its confluence with the Okanagan, in the high and snowy range of the Cascades where the Skagit has its source. The mines thus far discovered are located on the Salmon, commencing at its mouth or near there, embracing a mineral belt of two and a half miles wide and eighteen miles in length, lying on both sides of the creek. The formation is granite, the ledges well defined, the formation cut here and there by porphyry dykes, and has every appearance of permanency. The Tough Nut, struck by Messrs Boone, Van [illegible] Simms, Forrester and Pierce, shows a 3 foot ledge, with 8 feet of high grade concentrating ore, the assays running from 80 to 400 ounces per ton in silver and $18 to $32 per ton in gold. The ore carries about 10 per cent in lead and will average over $300 per ton. The "Homestake" is a large vein cropping for upwards of 800 feet, and shows from 16 to 20 feet of ore that averages over 120 ounces of silver per ton. There are numerous other locations showing equally as well that will soon show large ore bodies and make the country what the Coeur d'Alene is to-day. The camp is new. There are no stores or places of obtaining provisions and the difficulties are such that most of the prospectors who went there first are now out for supplies. As a supply point Spokane Falls is 160 miles from the new camp and the most available place to freight from. The Okanagan valley is large, well watered, the hills low and rolling but little timber in the country. A luxuriant growth of bunch grass is seen everywhere.

The land is rich easily worked and productive, while the winters are extremely mild as compared with the Big Bend country. In short it is an inviting field for the rancher, stock raiser and miner, and with the present influx of homeseekers and miners it is the most promising portion of Stevens county.

A Lane County View of It.

It is pathetic to note the avowals of Senators Dolph and Mitchell that Portland is to become the terminus of another railroad via Tacoma. It is strange but it looks as if the senators had not forgotten they were once attorneys for that corporation. Yakima City was once benefited by the Northern Pacific in the same manner in which they propose to treat Portland. The people of Portland have but one alternative and that is to fight the company that is so bitterly opposed to their city.

NEWS OF THE NORTHWEST.

WESTERN OREGON

The hops around Buena Vista are in fine condition. And the best of it is the price is looking up.

The contract for the erection of a new school house at Sheridan was awarded to Dawkins & Edwards, their bid being $975. They will commence work in a short time.

With the 1st day of the month came a change in the mail service between Perrydale and Salem, the mail only going there twice a week instead of daily, as before. The want of the mail being carried on the narrow gauge is felt seriously.

There are now two vacant scholarships in the State university that Polk county is entitled to fill. All who wish to compete for them should apply to Supt Robinson, Dallas, or appear at the next term of county court for examination. The next session begins the 13th of September.

Dallas *Itemizer*. The Polk county commissioners have laid the matter of appropriating $7500 for the construction of approaches to a bridge to be built at Salem on the table. The petition was signed by 600 voters, and was very ably presented by Hon N J Butler. All the argument in favor of the appropriation possible was brought to bear upon the court by Mr Butler. Wm Holmes, Esq, of Salem, also presented a few forcible facts in the case for the consideration of the court. But all to no avail. It is presumed that something will be done by the Polk county folks, by subscription or otherwise, to raise the $7500.

EASTERN OREGON

A flagstaff eighty feet high was raised with appropriate ceremonies at The Dalles on the 4th inst.

The Umatilla county wool clip of the season is nearly all in the market. J H. Koontz has shipped 2700 sacks, or 912,77[illegible] pounds up to date.

Farmers about Echo, in Umatilla county are harvesting their grain, which will make a little over half a crop. The hot winds cut short the yield fully one third.

A camp meeting will be held under direction of Rev. F M Spaulding at Hood river, commencing on the last Thursday in July and holding over two Sundays.

Arlington *Enterprise*. Nearly all of the fruit and ornamental trees that have been set out in our city are thriving beyond expectation. A few years will make a wonderful change for the better in the appearance of our city.

Times-Mountaineer. During the week we have had occasion to converse with several persons from different portions of the county, and learn that the crop will be much better than expected. While there has been a great scarcity of rain, the cool weather that we have experienced has been very beneficial. Wasco county will not average as much to the acre as last year, but the larger area that has been cultivated may make our harvest nearly equal to that of last season.

LANE COUNTY.

There is $12,5[illegible]0 in the Lane county treasury.

Immigrants are arriving at Eugene almost daily.

Dr Harris is going to put up a brick drug store at Cottage Grove this fall.

The people of Eugene have ridded the town of prostitutes by threatening to prosecute them.

S H Friendly is offering to contract for hops on a basis of 17½ cents per pound, delivered in Eugene.

Gustave Hickethier has sold his place just west of Eugene City to August Hickethier. Consideration, $1800.

Sheriff Sloan, of Lane county, has appointed George C. Swift as his deputy, and Clerk Ware has reappointed W B McCornack as his deputy.

Several Japanese have arrived in Eugene for the purpose of attending the university during the next year. It is said that several more will arrive shortly.

The newly elected prosecuting attorney of the Twenty second district has appointed W S Shaw as his deputy for Lane county, vice Mr. J E Fenton, resigned.

Game such as elk and deer are getting scarce in the foothills of Lane county. Places where a few years ago they could be found in plenty know them not at all now. Breech-loading guns are too handy. A deer has no show for life.

At Chapman's mill, in Lane county, a young man by the name of Dunlap was badly injured by his gun bursting, tearing his thumb and lacerating his fingers. Dr Russell amputated a part of one of his fingers and thinks he can save the rest of his hand.

Near Chapman's mill, in Lane county, recently, a young man by the name of Claremont, in attempting to jump across a mining ditch at Blue river, slipped and fell on a sharp snag, letting out his entrails. After a critical operation and much suffering, Mr Claremont is now out of danger.

SOUTHERN OREGON

Douglas county owes $9000 and has $7700 in the treasury.

H E Baker is building a large new grain warehouse at Medford.

Klamath county had some refreshing showers last week, but not enough rain to do much good for the grain crops.

The Douglas county jail has not had a single boarder since early in May, except a little boy who is a United States prisoner.

The report from the Crater lake road survey is to the effect, that in the first twenty miles, the ascent does not exceed eight inches to the rod, and no heavy work so far.

There were 809 votes cast at the last election in Douglas county for swine running at large, and 707 against, therefore the hogs have a majority of 102 votes to root where they please.

The Sugar Pine door and lumber company of Grant's Pass, recently received an order for shipment of sugar pine lumber and products to Utah. The order included pickets for fencing.

It is reported that the track of the California & Oregon railroad will be completed in August as far north as Uncle Dick's Soda springs, which will leave a gap of only ninety miles staging to Ashland.

T F Lee, a truck farmer on Rogue river four or five miles below Grant's Pass, expects to ship forty carloads of melons to Portland and points farther east this summer. He is raising an immense quantity of early tomatoes also, and is having 3000 boxes made in which to ship them to the city.

Roseburg *Plaindealer*. Since about the middle of May the greater part of this county has been in need of rain, which came in considerable abundance last Friday night and Saturday morning although too late to be of any benefit to early sown wheat, it will undoubtedly help the late grain to fill and will be beneficial to green crops and gardens. There seems to be quite a difference of opinion in different sections of the country as to the actual condition of the grain crops. Some farmers state that crops are short and will be light in yield, while others assert that the wheat heads are large and plump. We trust the latter condition will be most prevalent.

EASTERN WASHINGTON

Spokane Falls has enacted stringent ordinances against the social evil.

A farmer in Baker bottom, Yakima county, has 1010 peach trees loaded to the ground with fruit.

A little daughter of L W. Gosling, living near [illegible] died last week from the effects of a rattlesnake bite.

Ground has been staked off for a Congregational church at Pullman, and building will be commenced soon.

At Walla Walla a Chinaman voted in the local option election, having proven that he was a native-born American citizen.

The board of canvassers counted the vote on the question of building a $2000 jail at North Yakima, last week, with the result of declaring its carriage by a majority of 117.

The little wheat remaining in Kittitas county is held at 45 cents per bushel, which price the millers refuse to pay, and as a consequence Walla Walla flour is being used throughout the valley.

The illustrated articles on the Big Bend country and the towns of Ellensburg, Sprague, Davenport, Port Townsend, Olympia and Chehalis, will appear in the September number of the *Northwest Magazine*.

The total vote of Whitman county, including the precincts voting on "local option," is as follows: For, 1105; against, 510; majority for, 595. Adding the vote of the Colfax precincts increase the majority for prohibition to 621.

Colfax *Commoner*. If freight on wheat to Portland was reduced to three or four dollars a ton, not only the farmers but everybody living in Eastern Washington would be greatly benefited thereby, and the railroad still reap a good profit.

There will be a mass convention of the Temperance Voters' league, Woman's Christian Temperance union and all other temperance organizations, as well as all interested in the promotion of temperance, at Cheney on Thursday, July 15, at 9 o'clock A. M.

Governor Squire has let a contract for boring an artesian well in Adams county, of five and one-half inch bore, to H. Gray & Co., Chicago, the price varying from $5 50 per foot for the first 500 feet to $8 per foot for all work subsequent to the first 100 feet.

Cheney *Sentinel*. A stock-yard is badly needed at this station. Stock is driven through Cheney to Spokane and from all points in the Big Bend and Rock Lake ranges to Sprague for shipment, while Cheney is more convenient for a large section than either of these points, and pasturage is far better, hay much cheaper, and stock men have clamored for facilities until they are completely disgusted.

Rev Cushing Eells has gone to spend the summer with his son at the Puyallup Indian agency near Tacoma. Mr Eells has been a resident of Washington territory nearly fifty years.

Spokane Falls *Review*. Town Clerk Hanna is in a pretty mess. He has forgotten the combination for the lock on the city safe, and the contents are beyond the reach of anybody. He has had the combination for a year. All at once it slipped his memory, and for the life of him he cannot recall it.

Ready Made Resolutions

Yakima Signal

An inventory of the property and effects of the Northern Pacific Railroad company would run something like this: So many miles of road so much rolling stock, one land department one resolution factory so many hundred weight of ready made resolutions suitable for expressing the sentiments of any community or board of trade so many ever ready strikers, flunkeys etc. etc. Whenever it is found necessary to use any of the last named trumpery a telegram is sent out for use from head quarters.

Two years ago when the republican convention assembled at Seattle and as delegates were settling down in their seats one of the company's attorneys took his place at the head of the committee on credentials while another of the same company's attorneys walked up and down the aisle exhibiting a telegram just received from head quarters announcing that the contract had been let for building the Cascade branch and intimating that all would be lovely if nothing was done to disturb the grant. Later along when Voorhees was about to be elected it was announced that work would at once stop if the election should go wrong, and contractor Bennett issued a circular warning his workmen not to vote the bread out of their mouths.

Just now we have another telegram passing along the line containing the alarming announcement that work will be stopped if congress forfeits any of the land. Accompanying this dispatch we have a full set of ready made resolutions.

BRIEF MENTION

The Burtons, Herne and Roscoe and others make up a grand bill at the [illegible]

Alex Campbell, of Astoria is in the city renewing old acquaintances and friendships.

License to wed was issued yesterday for H S Gaddall and Annie Murray and W S Herns and Martha E Lance

A drunken squaw lying on the sidewalk on Taylor street toward dusk last evening, annoyed a great many people going to the tabernacle. She was finally removed by the police.

Col. Rodney Smith is under orders for change of station. The household furniture at his residence, 207 Yamhill street, will be sold at auction on Wednesday the 14th at 10 o'clock.

In the absence of School Clerk Struble who left on Sunday for the East, the business of the office will be attended to by his son W B Struble who may be found at Central dock foot of Washington street.

The British bark Helenslea which crossed out yesterday was the first vessel to clear with salmon this season. She took 11 752 cases of salmon and 1,335 barrels of flour, the cargo being valued at $[illegible]

Yesterday Deputy Marshal Johnson of the Dalles, brought down one Patrick McGowan charged with selling liquor to Indians. He was held to answer on examination before U S Commissioner Paul R. Deady.

George Ikeman a boy about 17 years of age was arrested last night at the foot of Salmon street on a charge of larceny preferred by [illegible] Lesch. Ikeman is accused together with other boys, of stealing a lot of old junk.

Policeman Morgan arrested Emanuel [illegible] a Frenchman on a charge of vagrancy. At a late hour last night [illegible] had not been bailed out so from this it would appear that he is not a member of the French [illegible] association.

Yesterday Charles Trieber the saloon keeper at the corner of First and Madison streets paid the fine of $70 imposed on him in the first case wherein he was convicted of selling liquor to minors. The rest still stands on appeal in the first two cases.

Sunday B B Tuttle justice of the peace of North Portland received a telegram announcing the death of his wife's father at Sacramento. Yesterday morning Mr and Mrs Tuttle left for Sacramento by the south bound train to attend the funeral.

Ed Hutson was taken to the penitentiary at Salem yesterday by a deputy sheriff. Hutson will be secluded from the public gaze for two years for the reason that he needed money and having any of his own helped himself to some of the till of the Aurora restaurant.

About 5 o'clock yesterday afternoon a wood train on the west side road came down Fourth street at a sort of go as you please gait. What the trouble was wasn't ascertained but it looked to a casual observer as if the brakes failed to hold the train which in consequence went off a flying runaway.

The petition of the Northern Pacific Terminal company reviewing the proceedings of the common council in the matter of the proposed reopening of North Third street is to be argued before Judge Lastluck Wednesday. As the Terminal company have received some $8003 from the council as damages, it is thought this will act as an estoppel.

Wil Curry who has been prospecting in the mountains of Southern Oregon for some months past arrived home last night. His nerves must be well braced up by his roughing it for so long, and he will be in good trim for shooting again. He may be induced to try conclusions with some of the champions who have come to the front since he went away. A match between him and [illegible] would prove interesting to sportsmen.

McAllen & McDonnell, of the Popular Dry Goods Store 1[illegible] Third street report business unusually good. They have made extravagant reductions previous to making extensive alterations for their rapidly increasing business. Bids will be received in a short time for carpenter work.

TOO HOT TO COOK

Business men let your families go to the seaside and go and board at Freiman's for it is just the same as home cooking. It don't taste like a restaurant at all; you will surely be satisfied. Oak street, between Front and First.

The Mount Hood Steam Laundry company of this city has secured the services of a thorough superintendent from one of the most successful Eastern laundries. Will be here Thursday or Friday of this week.

LOCAL AND GENERAL.

Last Train on the Union Pacific.—We clip the following from the Omaha Republican of July 6: Since there is no longer any doubt about the Union Pacific company's determination to put on a fast passenger train between Omaha and Ogden, people are beginning to talk about the scheme and the more they talk the bigger it looks to them and the more favorably impressed are they becoming with the immensity and importance of the enterprise. That it will be of great benefit to Omaha in more ways than one all admit and every citizen stands ready to congratulate General Manager Callaway on the success of his efforts to bring the old Union Pacific out and place it where he can have some show of competing with other transcontinental lines. This fast train system is bound to give the road great advantages over its antagonists in the matter of securing Pacific coast travel. The quick time to be made and superior accommodations that will be offered are features that cut large and influential figures with tourists. As heretofore stated the length of the trip from Omaha to the Pacific Coast will be shortened about twenty hours and to a man or woman who wants to make it that means more than can be expressed tellingly in cold type. If the arrangements which are now well under way work out all right the first train will probably be started about one week from to-morrow. A mountain of work has to be performed before the word can be given but Mr Thompson is pushing things for all they are worth. He is anxiously waiting for the day when a message can be flashed along the wires carrying, look out she's coming. To equip the system thoroughly and run it right about six complete trains will be required between Omaha and Ogden. One will go out every morning and one come in every evening. It will take them about four days to make the round trip.

New Move in the Holladay Suit.—By agreement of the attorneys in the Holladay case and in accordance with a stipulation filed Judge Stearns yesterday substituted Joseph H [illegible] and George W Weidler as receiver in the case in place of D P Thompson. The object of the change it is said is to save expenses as the receiver's compensation [illegible] law. The newly appointed receiver are required to give a bond of $100 000 each within three days. The change is a result of the reconciliation of Ben and Joe noticed in these columns some time since superinduced by an earnest wish on the part of the brethren that the interests of numerous creditors in the Holladay estate might be carefully looked after. The late decision of Judge Deady that the transfer of the property by Ben to Joe was illegal and void and ordering that enough of the property be sold to pay the judgment secured long since by S G Elliott seems to have wakened the brethren to the fact that a reckoning day is coming. By union [illegible] their interests they may be able to hasten or defer its arrival as best suits their interests. In view of the fact that George Washington stood in for Ben in the big suit it will be interesting to note how Joe and he get along in the joint receivership. In their new relation the happy couple have the best wishes of a multitude of friends.

Longer Office Hours.—Last Saturday the employes of the O R & N company received the following notice from President Smith, through the heads of the several departments: Commencing Monday, July 12 office hour will be from 8 A. M. to 6 P M. One hour and a half will be allowed at noon. On Saturday until October 1 the hours will be from 8 A M to 12 noon. All men in the employ of the company must observe those hours strictly. The order did not have the approval of the small army of clerks, and some of the small salaried men hope the president will stay away a long while when he leaves this time. Not a few of the employes were [illegible] put out by the order that they would have resigned if they were certain of other steady employment at higher wages and less hours.

Sailing Race.—There was a close and exciting sailing race at Astoria Sunday between Brown & McCabe's boat Harry Bingham and McCormick's boat Pride of the Columbia. The latter had been regarded as the greyhound of Astoria and the Bingham as a tub but that was because she had never been properly sailed. This time John Nel[illegible] on a first class Whitehall sailor was at the tiller and she behaved beautifully. The race was eight miles with two turns and the Bingham beat her competitor 45 seconds time 1 hour and 40 minutes and a fraction—the best ever made over the course. A fine breeze 8 to 10 knots an hour prevailed during the race.

Brought Home Sick.—Hon F I Bristow of this city says the Salem Statesman who has been for [illegible] for some time past at Sodaville [illegible] for the benefit of his health was brought home on yesterday morning's train in a very weak condition. On Friday evening after supper while in his usual condition of health Mr Bristow was suddenly attacked with hemorrhage of the stomach and passed a very bad night. It was thought best to bring him home and so he was placed on a mattress and brought down. At last accounts Mr Bristow was resting easy.

Why Not Offer a Reward?—The county court should offer a reward—say $400 or $500 for the arrest and conviction of the man or men who murdered Frederick Kalusoha last Thursday night. Detectives can not be expected to spend time and money in special cases without special pay. The case of the sailor was parallel to the murder of Frown in the Bradley bagnio. If no reward had been offered those engaged in the crime would probably have escaped punishment. Justice demands that something be done by those in authority towards finding and punishing the murderer of Kalusoha.

Cow Poisoned.—A Whittlesey who resides at Summit station lost a very valuable cow a day or two since from the effects of some poisonous plant which it had eaten. It is seldom that such a mishap occurs at this season, but in early spring cattle are often poisoned by eating wild parsnip or some other poisonous plant which shoots up in advance of the nutritious grasses. In the field where Mr Whittlesey kept his cow is a swale where noxious weeds grew and the pasture becoming dry the cow ate of them and died in twenty four hours.

Normal School.—Miss Tupper's class in normal studies commenced yesterday in the High school building. There were about fifteen in attendance at the opening and several from the country are to commence this morning. Enough have already signified their intention of joining the class to insure its success. This is the most favorable opportunity that has ever offered in Oregon for a term in normal study as Miss Tupper has had an extended experience in this course of instruction.

Charles Holman's Estate.—Yesterday in the county court an order was made in the estate of Charles Holman deceased that the executors allow Mary Holman widow $100 per month. The appraisers value the estate at about $50 000 although they have not settled on the value of the farm and other land in Clackamas county. The property in this county is estimated to be worth $19 9[illegible] and the interest in the draying business of John W Holman & Co at $[illegible]

Gruetli Verein Election.—The Portland Gruetli Verein at their regular meeting yesterday elected the following officers for the ensuing term: A Rusterholz president, [illegible] Wildi vice president, J Hacklen treasurer, F Werren recording secretary, F St[illegible] financial secretary, C Kr[illegible] [illegible] M[illegible] G Snith and F J[illegible] trustees. D [illegible] J Bauman and J Tung committee on widows and orphans. The society is in a first class flourishing condition.

Better Salmon Run.—The salmon are coming into the river a little more freely and canners and fishermen are living in hopes of a July run which will enable them to swell the pack to something like an average one. Yesterday's catch with the catch of Sunday added enabled some canners [illegible] which they had not done before [illegible] The [illegible] has been very large [illegible]

For Gray's Harbor.—The [illegible] company have put the steamer Central on the Gray's Harbor route and intend to keep her in that trade provided enough patronage is offered to justify it. She usually makes the run from Astoria to the inside of Gray's Harbor in five hours and has 100 tons freight capacity and [illegible] for fifty passengers. For the present the Miles will do the trip every twenty [illegible] days.

Transfer Company Sold.—The F G Flert Transfer and Forwarding Company including the trucks horses good will of the business etc has been purchased by the Oregon Transfer Company. The price paid was $38 000. It is most likely that the business of both companies will be consolidated and the Oregon Transfer Company will once more resume the position towards shippers and transportation lines that it held years ago.

Installation.—The following were installed as officers of Court Mount Hood No 6[illegible] Ancient Order Foresters last night by J A Abstein: D H C R Chief ranger W[illegible] McLean sub-chief ranger, H Clentes recording secretary N W Strahan senior woodward J H C[illegible] junior woodward G Broker senior beadle Charles W Shuld w[illegible] junior beadle W H Wilson past chief ranger Edwin Richards.

Dining Car on the Kalama Branch.—Yesterday the Northern Pacific put on the finest dining car in the company's service between here and Hunters. It will double the road every day and furnish dinner to passengers both ways. This will be quite an accommodation to passengers particularly those east bound from Tacoma.

Real Estate Sales.—A B Richardson sells at 10 A M at corner of First and Washington, lots and [illegible] in block [illegible] Caruthers addition. On the property is a house of 8 rooms an orchard, cistern and shrubbery. It is something desirable and a good sale is looked for.

PERSONAL

Mr J M Hannaford, traffic manager of the Northern Pacific, will arrive here to-day.

Emery Averill and J G McCallum with Misses Valentine & Goldsmith are at Stout's North Beach for two weeks vacation.

Capt H I Hoyt and family left Tuesday on the Olympian to spend the summer at Grimes's hotel Clatsop.

IMPORTANT TO SEASIDE PASSENGERS

Commencing to-morrow the Olympian will leave Ash street on her Tuesday and Thursday trips at 8 A M instead of 8 30 A M as heretofore. Ilwaco passengers will note that this new arrangement brings them into Ilwaco at 3 30 P M, before the arrival of any other boat.

THE BOARD OF TRADE

A Report from the Committee on Pilotage Complaints—Routine Business

A regular monthly meeting of the board of trade was held last evening, Vice President Dodd in the chair.

The minutes of the preceding regular meeting and of three special meetings were read and approved.

COMMUNICATIONS

From the secretary of war saying the order for removal of troops from Fort Klamath had been suspended.

From Senator Mitchell with regard to Northern Pacific land grant forfeiture resolutions accompanied by his remarks in the senate after receipt of advice from the board that the first resolution had been reconsidered.

From Senator Dolph acknowledging receipt of resolutions and of telegram giving the result of the second special meeting. He also set forth his views regarding the forfeiture bill at some length and gave reasons for opposing forfeiture.

The communications were filed.

REPORTS

From the committee on relief for sufferers by the Vancouver fire, accepted.

From the committee on pilotage and towage complaints. Laid over under resolution adopted one month ago until next regular meeting. The report reads as follows:

To the President and Members of the Portland Board of Trade.—The committee appointed by your board to investigate and report upon the subject matter of a resolution offered to the board on April 1 last dealing with complaints that had arisen of detention to shipping at the mouth of the Columbia river and the necessity of the state pilot schooner Governor Moody, being supported by an independent steam service have now the honor to submit the result of their investigation and consideration.

Your committee have carefully investigated the nature of the complaints made and have obtained the sworn evidence of the pilots who have handled the principal of the ships which have suffered detention. The statements of masters of ships who have so suffered have also been collected and examined. In addition to this the views of Glasgow, Liverpool, London and American shipowners of high standing and repute and whose vessels have been to our port for cargoes, have also been obtained by direct application. The evidence thus collected is of a very positive and uniform nature and leads your committee unanimously to conclude as follows:

First—That frequent and serious discrimination is practiced in the matter of towing vessels in and out over the Columbia river bar causing unnecessary detention and expense.

Second—That the presence of the state pilot schooner Gov Moody is of marked benefit to the shipping visiting this port.

Third—That the discrimination spoken of has already seriously prejudiced our port in the minds of many ship owners and unless abolished is likely in time to seriously cripple the shipping resources of Oregon.

Fourth—That the said discrimination is likely to continue as long as there is an absence of competition in the steam towage service at the bar or unless the present service of tugs plying for the towage of vessels bound to ports in the state of Oregon be compelled under penalty by special legislation as public conveyancers, to tow vessels in the order in which they arrive in proximity to the bar and in the order in which they are ready for sea whether outward bound irrespective of the pilot on board and without discrimination. It is clear to your committee that the existing evils in the service at the mouth of the Columbia river can only be done away with by either a permanent competitive steam towage service or the abolition of discrimination by special law in the manner outlined in other words through private enterprise or public interference.

Therefore your committee respectfully recommend that a very strong [illegible] be laid before the governor of Oregon without delay so that he may embody them in his next message to the state legislature urging that body to take such action as will be calculated to remove what has become a dangerous obstruction to the commercial welfare of the state of Oregon.

A LAWYER AGAINST A CORPORATION

Ellis G Hughes Sort o' Gets the Better of the Dundee M & T I Company

Judge Deady yesterday delivered an opinion in four of the cases of Ellis G Hughes against the Dundee Mortgage and Trust Investment company. Mr Hughes appears to be very fecund as to suits against the D M & T I company as he yesterday commenced a new one No 1[illegible]6 in the U S circuit court to recover $[illegible]06 90 with interest costs, etc. It must not be understood that Mr Hughes has brought 1,56 suits against that company but with the start he now has there is nothing to prevent him from reaching that number if he should live to a good old age as it is said some twenty more suits are hatching. It is not usual for one man to have so many cases in court that the judge can bunch them together and give decisions on four at a clatter, and when such a thing happens the public may be expected to wish to have some insight into the matter though probably few except the traditional Philadelphia lawyer can thoroughly understand it. There was some time since an Oregon & Washington Trust Investment company engaged in the pleasant and profitable business of loaning money in this section. Mr Hughes attended to the legal business of this company which was at length amalgamated with or swallowed up by the Dundee Mortgage & Trust Investment company. Mr Hughes continued in the employ of the new company. They made an arrangement with him by which all borrowers from the company must get his certificate to the genuineness of their title to the lands offered as security for the loan for which said borrowers were to pay him. In the course of time the friendly relations between Mr Hughes and the company were severed and unfriendly ones took their place. Mr Hughes brought suit in the U S court against the company to recover some $15 000 to $20 000 for services as general legal adviser etc. He obtained a verdict for some $8000 and the company carried the suit to the U S supreme court on a writ of error and it is there yet. He then out ceived suits to recover for services in issuing certificates for the two companies in the sum of $15 000 for the issuing of which certificates the borrowers it is understood had paid. He then brought suit to recover $[illegible] to commissions on loans passing through his hands. The company deny that they owe him anything for such services and further state that they do not owe him anything for such services, the indebtedness was a part of a single cause of action covered by the first suit. And they pleaded the judgment in that suit a bar of his claims. He replies that when they took that suit to the U S supreme court on writ of error they suspended the judgment. The court held this a good bar. He also replied that they were estopped after they had taken it up from pleading. It is a good judgment here. This was held to be correct and thus ends this brief history of the [illegible] between Mr Hughes and the [illegible] [illegible]

STRANGE SUICIDE

A Father Kills his Son and Himself with Prussic Acid.

The Suicide Leaves a Letter Giving his Motive for the Terrible Deed—His Mind Evidently Irrational

About 11 o'clock yesterday forenoon Otto Duport and Willie Duport his 5 year-old son were found dead in their bed at the residence of J Kirby No 113 [illegible] street where they had occupied a room since the first of April last. They had retired at the usual hour the evening before and about 5 o'clock yesterday morning Mr Duport was heard to come down stairs and shortly after to go back to his room. Neither of them having come down stairs at 11 o'clock, Mrs Kirby called the boy who boarded with her and receiving no answer went up stairs and rapped on the door of their room and called again and still receiving no reply she peeped into the room and saw both father and son in bed dead. She was greatly horrified and at once alarmed the neighbors. The coroner was notified and took charge of the remains. A cup was found on a shelf near the bed which was found to contain cyanide of potassium the liquid form of prussic acid.

In the afternoon an inquest was held. The jury found that Otto Duport and Willie his son came to their deaths from the effects of cyanide of potassium administered by Otto Duport with the intent of destroying their lives. In the pocket of Mr Duport was found a letter written in German giving his reasons for committing the terrible deed. It stated that he came to San Francisco from Chicago six years ago and worked for Goldstein & Kohn hair dealers on Market street that his wife was unfaithful and afterwards became insane and was sent to the asylum at Napa. He then went to Victoria and his wife being released came there to him causing him more trouble. She shortly became insane again and was sent to the asylum at New Westminster where she now is. He states that his wife's paramour tried to poison him and that he has since had palpitation of the heart. He concludes by saying that he was out of money and felt worse than a worm and had decided to do away with himself to get rid of his sorrows. I will be better off. You will find $10 on me which will be sufficient to bury me and my son.

Duport was a wigmaker and barber by trade. He had a 15-cent barber shop at Eugene last spring, but not doing well wrote to Clift Wass in this city soliciting employment. Wass sent him money to come down and gave him work at wig making, allowing him to work at barber shops as an extra hand on Saturdays. He remained in Mr Wass's employ until a week ago. He was a quiet gloomy man and he was looked upon by the other employes as a crank, some even judging him to be crazy. He quit rather suddenly complaining that the job he was working on hurt his eyes and went to work in a barber shop. When he came back to Wass's place after his tools one of the girls told him she thought he had jumped into the river. "Not yet" was his reply.

He has had steady work ever since he came here and as he had $10 in his pocket the statement that he was out of money was incorrect and it is possible that some of the other statements in it may emanate from his diseased imagination.

He had roomed at Mrs Kirby's ever since he came to this city. He never seemed troubled about funds and never complained of his health except that once he said that his heart troubled him. James Connolly a lad who had played with the Duport boy testified that he had heard him say that his mother was dead and he was glad of it. Also that he said on Sunday evening that he would be dead himself very soon. Dr Bevan examined the contents of the cup found near the bed in which the bodies were found and pronounced it to be cyanide of potassium and stated that the bodies of deceased indicated that they had taken this poison.

L. G Clark testified that the poison had been sold by one of his clerks to an unknown person. It was customary to sell the article in considerable quantities as it was used in various arts.

The bodies were viewed at the morgue by a large number of persons and many expressions of pity were heard for the little boy, who lay on the marble slab just as he was found in bed, in his night gown lying on his side with his hand under his pillow under his cheek. As to how the boy was induced to take the deadly draught must always remain a mystery. Whether his father had imbued him with the same gloomy ideas which possessed himself and he was ready and willing to die or whether he was deceived as to the nature of what he was taking will never be known. The poison must have been taken about the time for getting up as both had been dead several hours when discovered. Duport was about 35 years of age a German by birth and learned his trade at Frankfort on the Main.

[illegible] City, Or., July [illegible], 1886.

To the Editor of the Oregonian:

In your issue of the [illegible] inst you published the official returns for the state and district officers and I found my name published therein as having been voted for for the office of district attorney in this district.

Permit me to state that I was nominated without my knowledge or consent and that as soon as the news reached me of my nomination I notified each member of the state central committee for the counties comprising this district that I decline to accept the nomination and also had the fact announced through the press. Notwithstanding these facts my name was printed on the tickets and placed in three of the four counties of the district.

Why the persons having the management of the affair persisted in so doing I cannot tell. I make these statements so that my friends in the Willamette valley may understand why I was walloped by the cyclone to the tune of 7[illegible] votes.

THE UNION COUNTY MURDER.

Full Particulars of the Affair—Incidents Leading Thereto and Probable Outcome

About eight weeks ago, as the citizens of Indian valley Union county Or were working the road during the dinner hour Wm Bennett a wealthy farmer who lives about four miles east of Summerville and Orlando Legore had some difficulty resulting in abusive language being used by both parties, and finally Legore kicked Bennett in the mouth loosening or kicking out some of his teeth. There was nothing further said or done at the time. Legore seemed to be applauded for what he did, while Bennett who is a quarrelsome person was condemned for using language unbecoming a gentleman. Most of his neighbors considered it good enough for him. But little was thought of the affair and Legore supposed it had all blown over for some time after the trouble he shunned Bennett not desiring a renewal of the affair and knowing that Bennett was quarrelsome to had not even passed his house. Bennett it seems, made some threats but as he frequently made threats no one supposed he would attempt to carry them out.

On Saturday July 3 Legore attended the celebration at Union and from there went to visit his mother who lives about a half mile from Bennett's place each house being in plain view of the other. He spent Sunday the 4th with his mother and on Monday into the [illegible] accompanied by his wife and four children and entirely unarmed he started home. Feeling consoled that there was no danger and happily surrounded he approached Bennett's house and when near the corner of the barn and at about seventy five yards from the front of the house the attention of both Mr and Mrs Legore was attracted to something behind them and on looking around they saw Bennett coming from the barn corner and from a place of concealment with his gun in hand and attempt to shoot. Legore had a child in his arms his wife was sitting at his side with a child in her arms and his 14 year old daughter sat behind him so that there was little chance given to fire without hitting some one else. Mrs Legore caught the lines and told her husband to slip down under the seat and then began begging Bennett not to shoot. As Legore slipped down off the wagon seat he turned with his face toward Bennett who fired and the ball took effect in the left shoulder and ranged downward through the left lung, and out near the center of the back. Bennett followed the wagon sixty to seventy five yards before he got a chance to shoot. The gun used was a 50-calibre needle gun.

After doing the shooting he went to his work as unconcerned as though nothing had happened. The shooting occurred at about 11 o'clock A M and Legore died about 7 o'clock P M. Bennett was arrested and lodged in jail. Two attempts have been made to lynch him but both have failed. It is feared other attempts will be made to avenge the murder.

DIVORCES ASKED FOR

Three Wives Ask that the Matrimonial Bonds be Dissolved

Fannie V Keefe has commenced suit for a divorce from Joseph P Keefe. They were married in Boston, Mass Jan 8 1[illegible] and the issue of the marriage is five children Joseph T Keefe aged [illegible] Fannie A Keefe [illegible] Lizzie Keefe [illegible] John Keefe [illegible] and Hazel C Keefe 3 years. Plaintiff alleges that defendant is now a resident of New York that for the past seven years he has treated her in a cruel and inhuman manner rendering her life burdensome. That in March 18[illegible] in Boston he attacked her with an open razor and threatened to do her bodily harm and that he has ever been insanely jealous of her. Wherefore she prays that the bonds of matrimony be dissolved and to be allowed to resume her maiden name Fannie V Bate. The plaintiff is Fannie Singer of the Casino opera company.

Fannie Anderson has brought suit for a divorce from Charles Anderson on the ground of cruel treatment and to be awarded the care of Annie Anderson a minor child aged 11 years. The couple were married in this county December 3, 1875. Among other things plaintiff accuses defendant in August 1883 of throwing a skillet of hot meat and grease from off the stove on to her.

Frederikke Permin has commenced suit for a divorce from Louis Permin. They were married in San Francisco March 11 18[illegible]. Mrs Permin claims her husband abused her, failed to provide for her wants ran around with other women and finally deserted her. FOR THE CURE OF

FEVER and AGUE

Or CHILLS and FEVER,

AND ALL MALARIAL DISEASES.

The proprietor of this celebrated medicine justly claims for it a superiority over all remedies ever offered to the public for the SAFE, CERTAIN, SPEEDY and PERMANENT cure of Ague and Fever, or Chills and Fever, whether of short or long standing. He refers to the entire Western and Southern country to bear him testimony to the truth of the assertion that in no case whatever will it fail to cure if the directions are strictly followed and carried out. In a great many cases a single dose has been sufficient for a cure, and whole families have been cured by a single bottle, with a perfect restoration of the general health. It is, however prudent, and in every case more certain to cure, if its use is continued in smaller doses for a week or two after the disease has been checked, more especially in difficult and long-standing cases. Usually this medicine will not require any aid to keep the bowels in good order. Should the patient, however, require a cathartic medicine after having taken three or four doses of the Tonic, a single dose of KENT'S VEGETABLE FAMILY PILLS will be sufficient. Use no other.

SUNDAY SCHOOL CONVENTION

Instructive Addresses by Several Visiting Members.

A Teacher's Duties in the Sunday School Room Outlined in Detail—The Programme for To-day

At 9 o'clock yesterday morning the Sunday school convention assembled in Grace M E church. The first hour was devoted to the topic "The Harvest." Rev E J Thompson D D of Salem, introduced the subject and was followed by stirring remarks by W F Jacobs, Henry Plant, Rev J Hoberg, Rev E Russ, Prof H Sheak. The hour passed rapidly and promptly at 10 o'clock Dr Thompson gave up the chair to Mr Allen the chairman of the convention. He suggested that the convention proceed to elect a temporary chairman and secretary. This was agreed to and E W Allen was chosen to act as temporary president and Rev F W Caswell, secretary, with W S Holt, assistant.

The convention was then placed in the hands of W B Jacobs and the discussion of the Work began. It began by remarks made by Mr Jacobs who spoke of the aim of the international committee to furnish a helping hand wherever it is needed. He also told of Illinois with its 102 counties all organized in the interests of the Sunday school work.

He was followed by E G Wheeler, who reported for Oregon as follows. The state has 25 counties, 73,567 children who drew public money in 1884, 43,150 in the common schools, 290 Sunday schools, 12,442 scholars. Nine counties are organized, viz: Yamhill, Multnomah, Benton, Jackson, Klamath, Josephine, Umatilla, Lane, Wasco.

COUNTY WORK

Rev J Hoberg of Lafayette, reported for Yamhill county as follows. There are thirty Sunday schools with about 1200 teachers and scholars. The county is organized and is the oldest organization in the state.

Prof Henry Sheak of Philomath, reported from Benton county. Twenty-three Sunday schools, 3100 children in the county, 1450 members, of which 130 are officers and 1320 scholars; average attendance 1310; $600 contributed. The county was organized in 1885.

Rev Mr McIntyre of Hillsboro reported in general from Washington county. The county is not organized. Sunday school work is pretty well carried on in the county.

Mrs J L Biddle of Dallas gave a partial report from Polk county. The county is not organized.

Rev G A Rockwood of Oregon City was able to say but little about Clackamas county. It is not organized, but little work is done in Sunday schools. The county is sparsely settled and difficult of access.

Rev J W Webb of Salem gave a short report from Marion county. At present the county is not organized, but it is expected that an organization will be perfected next Wednesday.

Lane county is unorganized. Sunday schools not in very good condition.

Lane county was not represented in the convention.

Mr Adair reported from Douglas county. The county is unorganized. There is little interest in the county in Sunday school work. Earnest live teachers are needed in this county as in many others.

Mr J F Billings of Ashland reported for Jackson county. This county in connection with Klamath and Josephine counties is organized as a district association. The three counties hold an annual county meetings aside from the district convention. The interest is growing in that district. Earnest men are needed in all the counties.

Columbia, Curry, Tillamook and Coos were unrepresented.

E. C. Holden, of Astoria, reported for Clatsop county. The county is sparsely settled. Sunday school work is quite well carried on, considering the condition of the county as regards population and roads.

No reports were given from counties east of the mountains as no delegates were present.

E. G. Wheeler reported for Multnomah county. The county is organized; there are twenty-five Sunday-schools, 10,841 school children of whom 2843 are in Sunday schools.

The morning session was closed with prayer by Dr Worden.

The afternoon session opened promptly at 2 o'clock. The devotions were conducted by Rev J Hoberg. The topic was "Seeking Wisdom." Verses were read from the first chapter of James.

The subject for the afternoon was then taken up by Dr J E Gilbert, viz: "The Work in Operation." Under this general head Dr Gilbert discussed Sunday school management. He said this should be:

1. *Ecclesiastical*, i. e., everything should be in harmony with the spirit and plans of the denomination to which the school belongs.

2. *Spiritual*, i. e., not social, not intellectual, not pleasure, but spiritual. Make everything tend to the spiritual welfare of the scholars.

3. Details of the Management.—(a) There should be something for the governing board or authority in the church to do. (b) there should be a monthly meeting of the teachers. (c) then the rest should be in the hands of the superintendent and his committees. The superintendent's work has two parts, what he must do outside the school and what he must do inside the school. Under the first comes (1) the duty of securing teachers and supplies, a training class is the best means for furnishing teachers. (2) securing new pupils. (3) looking after absentees. (4) attention to visitors. (5) classification of scholars, most important and delicate business, don't do it by size or likings or sex or social position or intellectual capacity but by ability to study together. (6) care of the converts.

Dr Worden then took up the subject "How to Prepare a Lesson." This he discussed under three heads: Why? What? How?

1. Why prepare a lesson? Because the subject is worthy of preparation, necessary to keep the teacher fresh, because the scholars are smart, because Jesus, the great theme of the lesson, deserves it.

2. What to prepare. The central thoughts, the facts, the questions, the doctrines, relation of the lesson to other lessons, introduction to the lesson, application and illustrations. These things were all brought out in answer to questions or as suggestions from members of the convention which explains illogical arrangement.

3. How to prepare the lesson. Do it early, go over the home readings, study your classes prayerfully, study the child's lesson leaf, use the references.

1. Never teach what you don't quite understand.

2. Never tell a scholar what you can get a scholar to tell you.

3. Never use a hard word where an easy word will convey your meaning, or without explaining it.

4. Never give a piece of information without asking for it again.

5. Never allow a child to remain a moment in a class without something to do and a motive for doing it.

The above are Fitch's celebrated rules.

The hour having passed, Dr Gilbert took up the next subject, "Teaching the Lesson." Use at least half an hour; get close to your pupils; use only the bible; develop love for your scholars; seek their salvation; fill up with the truth; review previous study; correct errors in study; remove doubts; impress the truth obtained that it be made permanent. This is done by reiteration and illustration. Secure united thought upon the truth impressed; seek to arouse the conscience (intellectual grasp of the truth is not enough); discover sin and lead to Christ. The processes to be employed are: First—Reading the lesson; second—Recitation; third—Conversation; fourth—Questioning; fifth—Restatement; sixth—Draw inferences; seventh—Application. Don't lose sight of this. This closed a valuable hour.

Questions were then collected and put in the hands of Dr Worden. They bore on every branch of Sunday school work and received careful attention from the doctor. He is skilled in this work and his answers were far reaching and wise and met the questions well.

The question box was so full that the hour of five passed before all the questions were answered. Accordingly it was postponed until to-morrow, when the rest of the questions will be answered.

EVENING SESSION

The evening session opened at 7:30 with a praise service conducted by E C Frost and was followed by a bible reading by Henry Plant of Minneapolis, who read from the first chapter of Romans and explained with great clearness and power the holy scriptures.

The Christian is called out of darkness into life, I. Peter ii 9. A Christian is called to live a life of faith, Heb. xi 8. Christians are called to be saints, I. Cor. 1 2. A Christian is called to be a light in the world, Matt. v 14. Believers are called to shew forth the praises of God, and they are called to his kingdom and glory, Thes. ii 12. A Christian is called to an inheritance, Rom. viii 17. A Christian is called to the marriage supper of the Lamb, Rev. xix 9. A Christian is called to the eternal glory of God, I Pet. v 10.

After a hymn and announcements of meetings by President Allen, Mr B F Jacobs was introduced, and called attention to four important facts.

First—That not over two-fifths of the population of Oregon are in our Sunday schools.

Second—That but one-fifth of the total population of the county are church members.

Third—That of all church members [illegible] all the money and do all the work.

Fourth—That only one thirtieth of Sunday school [illegible] are become members of the church.

[illegible] large proportion of those who leave the Sunday schools unsaved are young men. In II Peter [illegible], we find that God is not willing any should [illegible]. Jesus Christ came to seek and to save [illegible] that are lost and we are commanded to "Go [illegible] and bring them in." Jesus said "If I be lifted up, I will draw all men unto me." The [illegible] then gave an illustration of the plan [illegible] in Chicago of systematic visitation. The [illegible] can be reached by personal visitation [illegible] must have Christ brought face to face with [illegible] the [illegible] lift up Jesus Christ [illegible] them and let the [illegible] of his countenance fall upon them. Touching [illegible] incidents of personal work were then given and a [illegible] exhortation [illegible] to personal consecration.

EASTERN NEWS ITEMS.

THE PRESIDENT TAKEN TO TASK

CLEVELAND, July 12.—The *Leader's* Washington correspondent says: The inconsistency of the president as displayed in signing bills for the erection of a building at San Antonio, Texas, and for the increase of the appropriation and for one at Dallas, in the same state, and then turning around and vetoing bills for buildings at Dayton and Zanesville, as well as Sioux city, is beyond the comprehension of most people in Washington. It appears that sectionalism enters into the question, that there is method in his madness. It is true he has just vetoed the bill for a public building at Asheville N C, but he did that after he had vetoed the others named and was forced to do it so as to seem to be consistent. He never thought the people would remember the bills of the same kind he had to pass upon earlier in the session. The census report in 1880 shows that Dallas, which has been given an increased appropriation by the action of the present congress and by the approval of the president, had a population of only 10,358, and San Antonio, which by the signature of the president gets a new public building, had a population of but 20,550. The census reports for 1880 also show that Zanesville was peopled by 18,113 souls and Dayton by 38,678, and at the latter place over $4000 a year was expended for rent of buildings for postoffice and internal revenue collection offices. Both Dayton and Zanesville are among prominent railroad centers in Ohio and the rapid growth of each city shows that the action of the president was not only unfair but was the worst kind of blundering.

FAILURE OF AN OLD SUGAR FIRM

NEW YORK, July 12.—De Rivera & Co., an old and well known sugar importing house, having been established nearly fifty years ago and with branches in Porto Rico, San Domingo and Mexico, made an assignment to-day. The firm failed in 1884 but settled all claims in full, paying 10 per cent every sixty days. This drain it is thought, together with receipts of heavy consignments upon the market, are supposed to be the leading cause of the failure. No definite information as to liabilities is obtainable. The resident manager of the firm has not been seen since Thursday and it is feared that his financial troubles may have affected his mind. The other member has just returned from San Domingo. Estimates of liabilities vary all the way between $50,000 and $500,000. The capital of the firm is $700,000.

THE HERALD SENDS A MAN NORTH

NEW YORK, July 12.—Col Gilder, *Herald* representative, will start this evening on an exploring expedition of unknown regions of the North American continent. He will take passage at New London, Conn., on the northern whaler Era, which will land him on Cumberland inlet, where he hopes by a bold dash to reach the most northern latitude yet touched and if possible plant the American standard on the north pole. Col Gilder accompanied Lieut. Schwatka in his search for the remains of the Sir John Franklin expedition. William Griffiths is the only white man who accompanies him. Gilder will take with him a number of firearms and provisions for one year. They propose to live principally on fish and game. Gilder expects to find an open sea to some extent, but not navigable.

DOUBLE SUICIDE

NEW YORK, July 12.—Avarian Crutch and his wife Lucy, aged 50 years each, were found dead in their bedroom at No 101 Lexington avenue this afternoon, both having committed suicide by shooting themselves through the head. They committed the act some time between 9 o'clock last night when they were last seen alive and 1 o'clock this afternoon when their bodies were discovered. The husband had sent a bullet through his head, behind his left ear, and his wife had shot herself behind the right temple. Crutch was a merchant doing business at No 55 Beaver street.

STRIKE OF FOUR THOUSAND TANNERS

NEW YORK, July 12.—The *Post's* Boston special says: Four thousand tanners in Salem and Lynn struck this morning in consequence of the refusal on the part of employers to grant shorter hours. It is the largest strike that has ever taken place in New England. Great excitement prevails in the leather markets here to-day because of an order from Salem and Lynn to sell no more until the strike is settled.

A CUBAN TALKS WAR.

NEW YORK, July 12.—Col Joseph Migue Parraqua, a leading Cuban here, said to a *Tribune* reporter: "We are only waiting now the wishes of our people in Cuba. If they say fight, fight it is. No expedition will start from the United States, as we respect the laws of this country. I will say this much—everything is in readiness for war and we will move when the word is spoken."

DEATH ENDS A LONG FAST

SYRACUSE, July 12.—Mrs Caroline Benedict, aged 60, died at her home in Mottville in this county, on Wednesday night, after a fast of 53 consecutive days, during which she did not take a morsel of food nor water. Nearly every day she took part of a cup of weak tea and a few teaspoonsful of whisky.

FOR A SALMON HATCHERY

WASHINGTON, July 12.—Senator Dolph has given notice that he will offer an amendment to the sundry civil bill, appropriating $15,000 for the establishment of a salmon hatchery upon the Columbia river, its tributaries or their branches, and for the current expenses of the same for one year.

RAIN IN TEXAS

FORT WORTH, Texas, July 12.—The northern part of Texas was visited by a heavy rain storm this afternoon which did thousands of dollars worth of good to farmers and cattlemen.

BUSINESS FAILURE.

NEW YORK, July 12.—J De Rivera & Co., sugar merchants, 111 Pearl street, have made an assignment. The firm had been rated high.

DEATH OF REAR ADMIRAL WORDEN

NEWPORT, R I, July 12.—Rear admiral Worden died last night.

INDIANS IN PIONEER DAYS

From B F Dowell's petition asking pay for the Indian depredations of the Rogue river

VII.—Indian Mormonism and chastity are nearly as bad as the railroad strikers and Molly Maguires.

It was a common custom among these Indians to buy and sell their wives and daughters for a few blankets, horses or guns to become the wives or concubines of others. And to take a wife or maiden without the consent of her husband or father was punished with many stripes, with slavery or death, at the will of the father or husband. And in early times it was common for a few bucks with a lot of young slave squaws to hang around the towns and to hire them out for the purpose of prostitution to the miners. Some of these brown masters in this way in 1853, while gold was plenty, made considerable money; others sometimes even hired young slaves to Kanakas for the consideration of a plug of tobacco, and a buck who had two wives hired one of them out at Jacksonville to a Mexican packer for a drink of whisky. Mr Schnott, late Indian agent, says some of them when drinking still hire out their wives for the same purpose. Our attorney in 185[illegible] heard an Indian sell his wife to a miner for two plugs of tobacco. He also saw an Indian kill his wife near Canyonville for the alleged crime of adultery and the Indian was never arrested, much less punished.

Plurality of wives was not uncommon among the Indians. Many of them without making any profession of religion were practical Mormons and according to Indian tradition it was from time immemorial death by their laws for either wife to be unfaithful to her lord and the injured husband had the right to follow his wife and kill her or her seducer, or both of them at his will and pleasure.

Our citizens who married or cohabited with squaws were not as great religious bigots as Menendez, who persecuted the Huguenots in Florida, or as good Christians as John Rolfe, who in the innocence of his pious zeal married Pocahontas to keep her in the faith of Jesus Christ, but they were not very bad men. Being far from home, friends and white maidens, they thought it a good thing and no offense against the laws of God or man to marry a squaw. So a few whites associated with and actually fell in love with the squaws of the red race and took them for wives or concubines without paying their fathers or husbands even a ring of tobacco or a drink of whisky. For these trivial offences the Indians sometimes killed white men and the war of races was continued on the Pacific coast, like it commenced on the Atlantic about three hundred and sixty-three years ago.

Mr J Ross Browne, a special agent of the government, was sent to the Pacific coast to examine into the condition of the Indian relations in that quarter. He says: "The origin of the war was not different from that of any other war. It is the natural results of emigration and settlement. The history of our Indian wars will show that the primary cause is the progress of civilization, to which the inferior races, from their habits and instincts, are opposed. [illegible] about the same east and west. Those who loved and those who hated the red race on the Pacific coast did less villainy in proportion to numbers than the railroad strikers and the Molly Maguires have done in Pennsylvania and other Eastern states.

The statutes of Pennsylvania and its courts have compelled the city of Pittsburg to pay for the destruction of property within its limits by railroad strikers, and law and good morals ought to compel this congress to pay for depredations of the Indians.

TWO PROHIBITION VICTORIES

Pittsburg Dispatch

The advance of prohibition in the South is made identical by two striking items of news. One is that Atlanta is in the last few days become a prohibition city. Under the terms of the local [op]tion at the people had voted for prohibition [illegible] all the licenses having run out Atlanta is now without a bar room.

A city of sixty thousand people without a place of spirits or refreshment is a novel sight in this country and it is all the more novel because the first example of the kind is presented to the world in the South, where the affection of the people at large for the mint julep cocktail and the nocturnal night cap has been supposed to be ineradicable. It remains to be seen how the example will turn out. Whether the demand of the traditional Georgia colonels for hourly nips will permit the law to be enforced is an open question. The very fact that Atlanta has voted for prohibition is an evidence that the general estimate of the Southern love for strong drink is erroneous. But unless that opinion is an entire fabrication it is very doubtful whether any law can prevent the surreptitious saloon from supplying the demands of the thirsty Georgians.

But an even more surprising advance is shown by the news that the prohibitionists have carried Copiah county, Mississippi. It is evident that such a result in that district will necessitate one of two things. Either the old method of conducting political campaigns will have to be reformed or prohibition experiment must be abandoned. It is evident that it cannot be wrought up to the shooting point on cold water and the absence of stronger campaign material seems certain if prohibitionists adhered to in that political solidity of that heretofore intensely solid locality. Prohibition starts out with no slight strength in its favor, the no-license party having swept the county by two majority. If upon experiment it reforms the politics of Copiah county few people will care to dispute the assertion that there must be some good in the new idea.

It is certain that prohibition is making far greater strides in the South than in the North. It remains to be seen now that locality will take to the actual experience of getting along without it whisky.

A Suggestion from Yakima

Yakima Signal

The O. R. & N. built its line many miles within a dollar in subsidy from any source, and the 100 through lands withdrawn for the [illegible] lines of the Northern Pacific. At this [illegible] it is difficult to see why the latter company [illegible] receive an enormous subsidy for building a road in opposition to one built by unaided private enterprise—one whose earnings have so far justified [illegible] investment. If people wish to build opposition lines let them do it on their own money.

A Whoop for Tariff Reduction

Louisville Courier Journal

The question is to be agitated in every congressional district in the country. Every man even the president, must define his position. No quarter will be given or asked. Never again will such a weak, defenseless measure as the bill beaten last week be introduced. The next bill will turn white the hair of every protectionist in Pennsylvania in a night.

They Don't Care for Appearances.

New York Tribune

We are sorry that republican senators were unwilling to stand by the bill to prevent members of congress from serving at the same time as counsel for land grant railroads. It is better to avoid even the appearance of evil, but when the thing was done it would have been far better to let it stay done.

COMMERCIAL.

MONDAY, July 12.

Overland receipts include 79 cases hams, car wax, ous car hairs, 1 case candy, 20 bbls shovels, 8 cs boots and shoes, 20 butts, 1 bx tobacco, 1 cs cigars, 1 cs cigarettes, 50 cs lard, 5 bbls whisky, 7 cs dried beef, 12 washing machines, 21 cs axes, [illegible] bbls, 9 bxs glassware, 8 bbls, 1 cs crockery, 8 cs cloaks.

Private letters from the Colfax section do not bear out recent statements regarding crop conditions. Writers say the crop was damaged by dry weather and cannot possibly be a full one. Farmers declare their intention of building temporary granaries because of the present price for sacks and say they will be in no hurry to thresh. They believe freight charges to Portland should be reduced. At present the rate from that section is 21 per bushel. Cost of sacks and handling added leaves them no profit. From O. R. & N. stations prior the rate is 18c per bushel and farmers complain that at present selling values wheat raising pays nothing. Freights, sacks and hauling absorb everything above the cost of production, which cannot be reduced much below 35c. The transportation companies have declined to reduce freight charges nor have they indicated any positive willingness to do so. In answer to demands they point to small dividends and investment returns, but it is current belief here that circumstances will soon force a reduction of freight charges. Certainly the crop now about to be harvested will move slowly unless charges are reduced or prices improve. At this end matters are more favorable to first values than last year and if the cost of getting wheat to tide water be slightly lessened the grower can make farming pay. Best information now appears to agree that the eastern section will not this year harvest the quantity of wheat it did last year, although the entire cereal product may not be much below last year.

PRODUCE RECEIPTS—Last 48 hours: 1011 ctls wheat, 6[illegible] bbls flour, [illegible] ctls oats, 430 ctls bran, 1010 ctls mill stuff, [illegible] sks potatoes, [illegible] 17 lbs wool, [illegible] lbs hides, 6010 lbs hops, 10 cs butter, 130 cs eggs. Also 12,[illegible]4 lbs wool, 10,410 lbs hides, 41 cattle, [illegible] cs eggs from the eastern section.

IMPORTS—Per str Columbia from San Francisco included 9[illegible] [illegible] bbls [illegible] bxs [illegible] sks [illegible], 10 sks coffee, 11 mats [illegible], 101 sks rice, 10 bls [illegible], 100 sks salt, 15 kegs pickles, 31 pkgs tea, 45 sks beans, 81 cs canned goods, 11 cs baking powder, 47 [illegible], [illegible] crates, 10 cs extract, 11 cs axle grease, 31 cs spice, 18 bl meal, 30 tins matches, 3 cs candy, 4 sks nuts, 50 cs raisins, [illegible] cs lard, 11 cases dried fruit, 110 sks feed, [illegible] sks onions, 48 sks potatoes, 600 pkgs vegetables, 88 pkgs fruit, 43 bxs apples, 1 cs honey, 3 cs cheese, 5 cs butter, [illegible] cs boots and shoes, [illegible] cs paint, 972 kegs nails, 100 sks coal, [illegible] bxs glass, 14 bdls [illegible] bars iron, [illegible] kegs lead, [illegible] sks malt, 17 bls bags, 25 pkgs tobacco, [illegible] cs cigars, $1,75[illegible] treasure. Also for Astoria [illegible] bbls sugar, 11 cs canned goods, 4 cs lard, 15 cs crackers, [illegible] sks potatoes, 157 sks bark, [illegible] pkgs tin, [illegible] cs acid, 8 cs wash powder, 220 bxs soap.

WHEAT—Advices are generally of firm markets to-day, all American closing better. With us receipts are light and business narrow.

OATS—San Francisco advices are without marked effect here. If there is no change there for the worse the next steamer will take out what can be spared here. To buy some advance on last prices would have to be paid.

EGGS—Heavy arrivals since last report and the market is weak at 25c. A decline is quite certain and with liberal receipts to-night will probably come to-morrow.

POTATOES—California selling at $1 10@1 40.

ONIONS—California selling at $1 [illegible].

FRUITS, ETC.—Arrivals by steamer met with fair demand. Peaches $1@1 35, tomatoes 75c@$1, apricots $1 25, grapes $1 75. Cucumbers sold at 5c.

SALMON—Market firm. Boats in Saturday had more fish and yesterday the catch was again better. It is thought the rest of the month will see a run nearly equal to last year.

THE HOP MARKETS ABROAD

English mail dates of June 21 contain the following:

The London market may best be described as in a state of suspense, awaiting the progress of the growing plant. In the absence of speculation the position is perfectly healthy, but there is still a large supply of hops in the borough and holders are eagerly watching for the slightest pretext upon which they may base an advance in price. So far however all promises well, and although the raw blustering weather of the past fortnight has given rise to some anxiety on the part of growers, the plant is generally so sturdy and vigorous that there is no real cause for alarm. The fact that the growth of the vine has been comparatively unchecked by the cold winds and frosty nights which have recently prevailed all over England is proof indeed of its excellent condition. There are of course rumors of fly going about, but we believe the cases are quite isolated.

Throughout Germany, Belgium and Alsace-Lorraine the crop is in good condition and making fair progress, but the stormy and boisterous weather of the past week has given it a slight set back. A few days of bright June weather would soon bring the plant forward again, however.

From present indications the acreage to hops on the continent and in England will prove to be about the same as last year, and unless the plant takes a very decided turn for the worse it is doubtful whether values will rule much higher in the coming season. There is still such a large surplus stock of old American and other hops in England that only the failure of a considerable portion of the 1886 crop would warrant a material rise in price.

COLUMBIA RIVER TOWAGE RATES

The schedule of towage prices over the Columbia river bar as fixed by the Portland Tugboat Company, Capt. Flavel acting together, is as follows for vessels of the under mentioned register tonnage:

Tonnage	Inward— Loaded	Inward— Ballast	Outward Loaded
Not over 800	$150	$1[illegible]0	$150
800 to 1000	200	175	175
1000 to 1200	225	200	200
1200 to 1400	2[illegible]5	2[illegible]	[illegible]
1400 to 1600	300	[illegible]50	300
1600 to 1800	375	325	[illegible]
1800 to 2000	425	375	400

For giving orders outside the charge is $100. Vessels coming into the river seeking and leaving without finding business will be charged one rate for towage in and out of the river. Pilotage by the combination is $5 per foot each way. The pilotage charge has been reduced from last year, but the rate given is that charged by the tugboat owners. No schedule is furnished by the opposition, or Oregon pilots. They could hardly put forth as low a charge. Their schooner is now being repaired for the new season's business. River pilotage fees are still $4 per foot each way, but it is thought river towage will be less than last season. The latest charges were $200 to $[illegible]5 for vessels not exceeding 900 to 1300 tons register. Mooring charges in the harbor are reasonable.

MARKETS BY TELEGRAPH

NEW YORK STOCK MARKET

NEW YORK, July 12.—Governments were quiet and steady. News affecting stocks was in general more favorable, but there were also especially early in the day renewed reports of damage by drought. Advices of earnings received showed an increase and in regard to the freight war it was said that the idea of a money pool on all business between Chicago and competitive points was being favorably considered. Notwithstanding this, business was steady for only a few minutes when room traders made a combined attack upon grangers and Lackawanna and continued the attack throughout the day upon any indication of a rally. Western Union in the last hour received special attention. Altogether there was nothing new to call for the movement and the market closed weak and dull at the lowest figures of the day. First prices were generally ⅛@¼ below Saturday's final figures.

The *Mail and Express* says: Mining shares were neglected. Sales: Leadville [illegible], Bodie $1 1[illegible], Navajo 80, Hale & Norcross $[illegible], Eureka $[illegible], Homestake 1[illegible], Ontario [illegible], Alice $1 50.

PARIS, July 12.—Wheat and flour on spot steady. French country markets firm.

MARK LANE REVIEW

LONDON, July 12.—The *Mark Lane Express* in its weekly review of the British grain trade says: The weather is fine, favoring blossoming wheat. Trade is firmer. Sales of English wheat during the past week were 21,821 quarters at 30s 9d against 2[illegible],[illegible]4[illegible] quarters at 33s 8d during the corresponding week last year. Flour is very dull. There were thirteen arrivals of wheat cargoes; four cargoes were sold and three withdrawn. There was almost nothing doing in trade forward. At to-day's market wheat and flour were slow and prices unchanged.

"If people could only know what a splendid medicine Simmons Liver Regulator is, there would be many a physician without a patient, and many an interminable doctor bill saved. I consider it infallible in malarial infection. I had for many years been a perfect physical wreck from a combination of complaints, all the outgrowth of malaria in my system, and even under the skillful hand of Dr J P Jones, of this city, I had despaired of ever being a well woman again. Simmons Liver Regulator was recommended to me. I tried it; it helped me, and it is the only thing that ever did me any good. I persevered in its use, and am now in perfect health. I know the medicine cured me, and I always keep it as a reliable 'stand by' in my family." Respectfully,
MRS MARY RAY, Camden, Ala.
